

Dosierung als fixes Schema eingeben

Bezeichnung	Dosierung
Diltiazem Mepha	0.5 <input type="text"/> <input type="text"/> <input type="text"/> <input type="text"/>
Aspirin Cardio	
Simvasin Spirig	

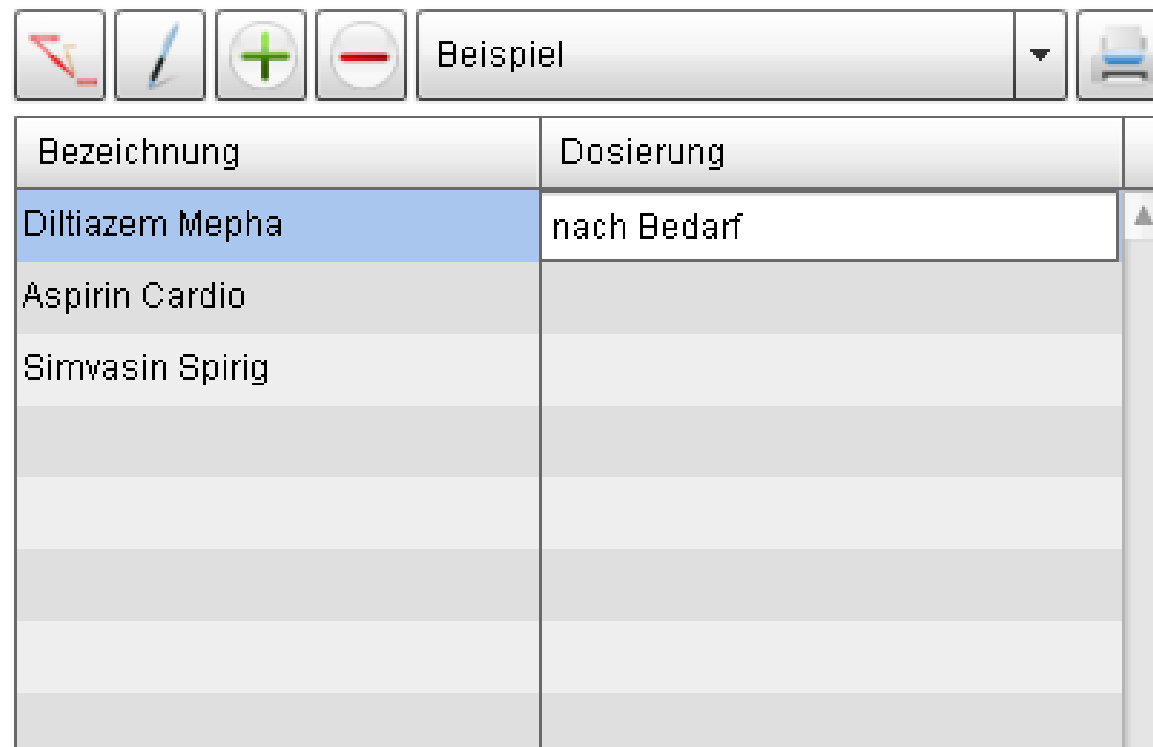

Wechsel auf manuelle Eingabe

The screenshot shows a software interface for managing medication dosages. At the top, there is a toolbar with icons for editing, adding, and deleting, followed by a dropdown menu labeled 'Beispiel' and a printer icon. Below this is a table with two main columns: 'Bezeichnung' (Name) and 'Dosierung' (Dosage). The 'Dosierung' column is further divided into four sub-columns, each containing a numerical value and a small up/down arrow icon. The first row is highlighted in blue and contains 'Diltiazem Mepha' in the 'Bezeichnung' column and '0.5', '0', '0', and '0' in the 'Dosierung' sub-columns. A red arrow points to the rightmost dropdown arrow in the 'Dosierung' row. A yellow tooltip box is positioned below the arrow, containing the text 'Kein fixes Schema verwenden'. Below the table, there are several empty rows for additional entries.

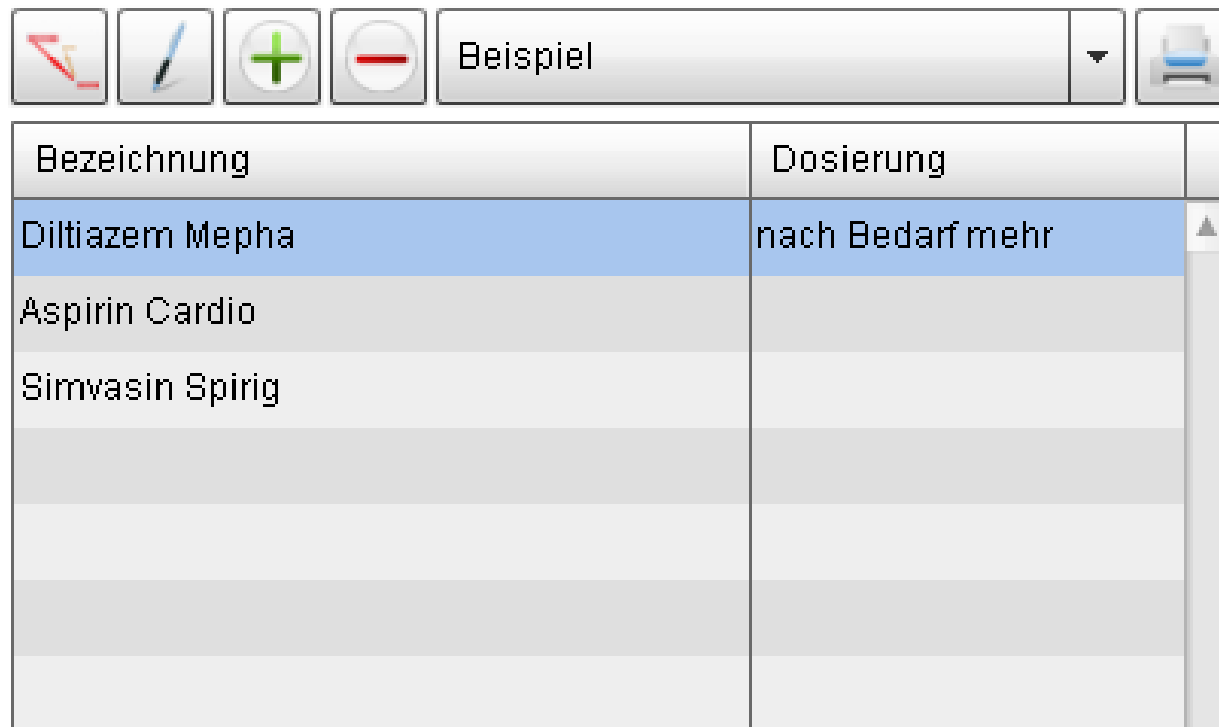

Bezeichnung	Dosierung			
Diltiazem Mepha	0.5	0	0	0
Aspirin Cardio				
Simvasin Spirig				

Standardwert „Nach Bedarf“

Bezeichnung	Dosierung
Diltiazem Mepha	nach Bedarf
Aspirin Cardio	
Simvasin Spirig	

Eingabe kann beliebig geändert werden und wenn gelöscht

Bezeichnung	Dosierung
Diltiazem Mepha	nach Bedarf mehr
Aspirin Cardio	
Simvasin Spirig	

Beginnt es wieder am Anfang

The screenshot shows a software interface with a toolbar at the top and a table below. The toolbar contains icons for a red line, a blue pen, a green plus sign, a red minus sign, a dropdown menu with the text 'Beispiel', and a printer icon. The table has two columns: 'Bezeichnung' and 'Dosierung'. The first row is highlighted in blue and contains 'Diltiazem Mepha'. The second row contains 'Aspirin Cardio'. The third row contains 'Simvasin Spirig'. There are four empty rows below the third row. A vertical scrollbar is visible on the right side of the table.
